Serial Number 10766616  
Examiner Wilkens AU 3637  
Amendment dated July 11, 2007

**Comment and Argument**

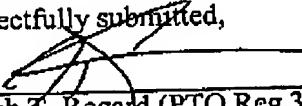

The title of the present case prior to the requested amendment reads "Stackable Cargo Bin with Dump Feature".

The requested amended title reads "Stackable Cargo Bin" as the dump feature is not a required element in the allowed independent claims, and the exemplary embodiment of the allowed claims does not require such a dump feature.

Thus, the amended title better describes the invention set forth in the allowed claims, and amendment is respectfully requested.

If additional issues remain, and the Examiner is of the opinion that same could be resolved by telephone or examiner amendment, the undersigned respectfully requests same at (985) 845-0000.

Respectfully submitted,

  
Joseph T. Regard (PTO Reg 34, 907)
